A. International SOS has a large network of 3rd party providers who can facilitate PEME. Would you prefer your new PEME provider to own and operate its own clinics or would a 2rd party provider network suffice? **We prefer our new PEME service provider to own and operate its own clinics.**

B. What is the expected population to undergo PEMEs each year? **approx. 15 pax per month**

C. In what locations across the Philippines are the PEMEs expected to be undertaken? **within NCR and other nearby provinces (Cavite, Laguna, Rizal)**

D. What is the expected timeframe from PEME to results issuance? **2-3 days**

E. May I ask if you can consider an Ophthalmologist instead of an Optometrist, based on your minimum requirements? **An Ophthalmologist will be more than welcome for the vision tests.**

F. On the IOM Medical Health Form, page 2: our usual Visual test by the Optometrist covers Visual Acuity FAR, NEAR and Ishihara. G. Our Chemistry Machine can run the regular CREATININE test however, we want to clarify if you are requesting for GFR when you refer to CREATININE CLEARANCE TEST? - **Creatinine levels is sufficient. We do not require determination of Glomerular Filtration Rate or an Inulin clearance test.**

H. May you also clarify why the Pre-Enrollment Health Exams is needed? Aren't the supposed patients only your employees? - **Before we hire staff into the Organization, we require that they are deemed Fit to Work for the tasks required of the position.**

I. May I ask if we can offer our Sputum Test as an alternative for the Mantoux Test? – **Sputum Test is acceptable.**
